## 8 QUESTIONS AND ANSWERS (“Q&A”)

- 8.1 Finally, the Chairman informed the Meeting that there was no live question and answer session at the Meeting. Shareholders were required to submit their questions at least 72 hours in advance of the AGM.
- 8.2 The Chairman thanked the two Shareholders who had submitted their questions and commented that they had raised issues which many other Shareholders would like to know.
- 8.3 The Chairman then invited Mr Leong Kok Ho (“**Mr Leong**”) and Mr William Nursalim alias William Liem (“**Mr Liem**”) to address the questions which were set out as follows:

(a) **Question 1: Dividends**

Whilst trying to find a new core business, the Group has been sitting on a pile of cash and has not paid any single dividend despite being profitable all these years? Could I suggest that the board pay out \$2m in dividends per year given the significant cash pile, as Shareholders would have borne the opportunity cost of sitting on a non-dividend paying company all these years?

**Response to Question 1 by Mr Leong:**

The Company and the Group had accumulated losses as at 31 December 2020. Thus, the Company was not in an adequate position to declare dividends. However, the Company would not rule out other options of shareholders’ return at an appropriate time. The cash holdings would be used to fund the Group’s operations and any new investments when opportunities arise.

(b) **Question 2: Share price vs NTA**

The NTA of the Group is \$1.62 per share and the share price is less than half of it. What steps does the Group take to narrow the gap?

**Response to Question 2 by Mr Leong:**

The movement of share price was a result of market forces and macro-economic environment. The share price was also a function of the intrinsic value and its earnings potential. When the Company’s performance improves, the share price would move in tandem. We would not intervene in the share price of the Company but would continue to engage with the investment community by releasing material announcements.

Mr Liem added that we would endeavour to enhance shareholder value in the long run and it was hoped that profitability would be reflected in the share price going forward.

(c) **Question 3: Sanya Project**

Why does the Group opt for the return of \$20 million loan from a related party instead of shares from SSRE? With the return of the loan, is the Group still involved in the Sanya project?

**Response to Question 3 by Mr Liem:**

The pandemic had posed threat but also offered opportunities. The cash repayment strengthened the Group's financial position and would enable it to capitalise on potential new investment opportunities. The Group was no longer involved in the Sanya project.

(d) **Question 4: Long Term Strategy**

SP Corporation has been looking for a new direction for a while still holding on to the commodities trading business. To date, we have not seen much progress given lending some of its excess cash to the Sanya development project. Could the Board advise what is the long term strategy of the Company and what could Shareholders look forward to?

**Response to Question 4 by Mr Liem:**

The Company would continue to focus on growing its commodities trading business by leveraging on established business relationships. This would help to sustain the Company's revenue stream. In the longer term, we would be involved in evaluating a number of business opportunities and would share with Shareholders when there were material developments.

- 8.4 In addition to the above, the Chairman said that, unlike last year, nobody raised the question of the appointment of a CEO to replace the Interim Executive Director. He then apprised the Meeting on the Board's approach towards the appointment of a new CEO and would keep Shareholders informed when there were material developments.

**9 CLOSURE**

- 9.1 There being no other business, the Chairman declared the Meeting closed.
- 9.2 The Chairman thanked everyone for participating in the AGM and wished that all would stay safe and healthy.
- 9.3 The AGM ended at 11.55 a.m.

# Financial Performance for FY2020

**Revenue was \$29.4 million** (FY2019: \$93.0 million), a decrease of \$63.6 million or 68%.

- ❖ Revenue was all generated from commodities trading. Coal trading, which is the core business, contributed about 91% to the Group's revenue in FY2020 (FY2019: 88%).
- ❖ The decrease was mainly due to lower revenue for coal and rubber trading reflecting the impact of the COVID-19 pandemic, e.g. border closures and lockdowns, thus affecting shipment.
- ❖ The drop in coal price also contributed to the decline in revenue.

**Profit after tax was \$1.4 million** (FY2019: \$2.5 million), a decrease of \$1.1 million or 44%.

- ❖ The decrease was mainly due to the lower gross profit arising from the reduced sales volume from coal and rubber.

**Net profit attributable to shareholders for FY2020 was \$1.4 million** (FY2019: \$2.5 million), a decrease of \$1.1 million or 44%.

## Financial Position as at 31 December 2020

Shareholders' funds	56,734	55,746	988	2%
Net assets per share (dollar)	1.62	1.59	0.03	2%

**Cash and bank balances were \$34.4 million** (2019: \$5.5 million). The increase was mainly due to repayment of a loan and accrued interest by a related party (\$23.2 million).

**Shareholders' funds were \$56.7 million** (2019: \$55.7 million). The increase was due to operating profits made during the financial year, net of foreign currency translation losses.

# Business Focus

---

**The Group's main business is in coal trading as we have established business partners.**

**Moving forward, management's strategy will be as follows:**

- ❖ Continue to leverage on the established business partners for its commodities trading business. We will look for new business partners in the trading operations.**
- ❖ Continue to explore new business opportunities to achieve long term growth for the benefit of its shareholders. However, each business opportunity will have to be evaluated based on its viability and merit.**
